Identify ancestors before buying a certificate!

The General Register Office (GRO) for England and Wales has released new online indexes that boost 'family historians' chances of accurately identifying their ancestors, before forking out for a certificate. For the first time there is a search field for the mother's maiden name for locating a birth registered between July 1837 and December 1915, and an age at death field for deaths registered between July 1837 and December 1957.

If you have never ordered certificates at the GRO I have attached a 'How To Document' for you, to walk you through.
